Cooler boxes

COOLER BOXES

The Amfi Craft cooler box is a moulded fibre reinforced polyester unit uniquely designed for the storage and transportation of temperature sensitive products. The walls and lid of the unit are injected with a rigid Polyurethane core thus allowing for outstanding temperature maintenance.

SUPERIOR INSULATING CAPABILITY

So what makes the Amfi Craft cooler box so unique? In 2003 an article was published in Practical Sailor magazine about an experiment conducted in America that compared Amfi Craft's cooler box with two other popular American cooler boxes.

A gallon of frozen water was placed inside each of the three cooler boxes, after which the lids were shut. The following day, the amount of melted ice was measured for each of the three cooler boxes. The first of the American cooler boxes yielded 8.5 cups, the second 8 cups, and the Amfi Craft cooler box just 5.5. Stated differently, the Amfi Craft's cooler box maintained an impressive 66% of the ice, while the other two managed just 50% and 53%.

The results speak for themselves; there is no doubting the superior temperature maintenance capability of the Amfi Craft cooler box.

FEATURES

Strong and durable

Lock down webbing and industrial velcro

Flexible hinge system on lid

Neoprene rubber seal recessed in lid

Tight sealing lid with velcro straps which minimises the risk of temperature loss

Padded handles for extra comfort

Stainless steel/aluminium fittings (non-corrosive)

Stackable for easy storage and transportation

APPLICATIONS

- Hunting
- Fishing
- Camping and leisure
- Catering and food storage
- Commercial
- Medical

GET THE BEST RESULTS FROM YOUR COOLER BOX

- Always ensure that your produce is well frozen or chilled before packing for a trip (at least 24hrs prior to departure).
- Always place your ice packs on top because cold air drops.
- Press down firmly on the lid when closing to ensure a tight seal.
- Don't leave the lid open for extended periods when packed with produce.

DIMENSIONS

30 Litre		
	External	Internal
Length	625mm	490mm
Width	390mm	265mm
Height	355mm	195mm
PU wall thickness	45mm	
Weight	7kg	

44 Litre		
	External	Internal
Length	520mm	385mm
Width	390mm	255mm
Height	460mm	325mm
PU wall thickness	45mm	
Weight	6kg	

55 Litre		
	External	Internal
Length	645mm	510mm
Width	385mm	255mm
Height	460mm	330mm
PU wall thickness	45mm	
Weight	7kg	

78 Litre		
	External	Internal
Length	745mm	615mm
Width	470mm	365mm
Height	430mm	290mm
PU wall thickness	45mm	
Weight	9kg	

140 Litre		
	External	Internal
Length	1290mm	1150mm
Width	500mm	370mm
Height	420mm	290mm
PU wall thickness	45mm	
Weight	17.5kg	

225 Litre		
	External	Internal
Length	1300mm	1150mm
Width	510mm	370mm
Height	620mm	470mm
PU wall thickness	45mm	
Weight	23kg
